(0N,0E) is located on the Northwest corner of the Island on the top of the hill. The Island has a high elevation on the western side and gradually slopes east to the middle and then flattens out across the rest of the island.

Story told of Island,

During the Indian uprisings the Indians told the white settlers to go out on the island and they would be safe and would not get attacked. Lady that own the dock that we were using told this story.
