

DeDeer Ridge

Date of Fieldwork

10/26/13

Alpha Site

LEq

Location

SEC/TWP/RNG: 10-110-23

South-Eastern shore of Lake Dora on a narrow ovular hill

13.5 acres

Address

No property address for the parcel

Parcel ID: 06.010.5200

Kilkenney RD, Kilkenney, MN, 56052

Physiographic Setting

Hilltop; Lakeshore; Partially Wooded

Surface/Project Area

Visibility: 10%

Lightly wooded on top of a hill overlooking Lake Dora

Current Land Use

Currently unused

Dorothy Knish expressed plans for potentially building on the parcel.

Personnel

Josh B. Anderson

Joshua C. Anderson

Cory Nowak

Duncan Widman

Tyler Warmka

Jamison Jordan

Work Type

Phase 1: Shovel Testing.

Methodology

Shovel Testing, 30 X 30 cm holes dug in 10 cm increments until soil is consistently sterile.

GPS points on each shovel tests.

Grid Northings/ Shovel Tests

Grid : 355 Degrees

ST's (Confirm)

Results

GRID	LITHICS	POTTERY	FAUNEL	FLORAL
TOTALS	54	10	3	0

2 woodland style projectile points.

1 proto-tool.

Owner

Dorothy Knish

Notes

- Dorothy Knish's ex-husband has a small collection of artifacts from the Deer Ridge property.
 - Photo #'s
 - 135-3571
 - 135-3572
 - 135-3573
- Dorothy and Daryll Knish spoke of an island on Lake Dora may be of interested, believed a Jerry Schultz owned the island
- 2 projectile points found between 70-100 cmbs, appear to be a woodland style
- Pottery found was grit tempered, surface treatment ranged from cord marked, smoothed-over cord marked, and smooth
- The hill top that was the project area was a narrow oval shaped platform elevated about 20 ft above the lakeshore
- Area surrounding the hilltop would have been underwater during prehistoric times. Dorothy has two brothers (Robert and Jerome Goettle) who also have areas of interest that are high probability for an archeological site
- Owner would like artifacts returned at the end of the survey
